HMI Soft Faced Hammers And Mallets

Soft faced hammers are shock absorbing hammers with ability to strike a clear blow to the work piece without damaging the surface. They have wide applications like sheet metal working, transformer manufacturing and rewinding, bearing alignments, pump and pipe fittings, smithy, carpentry, pillow block fittings, valves, automobile / aeronautical industries, power generation machineries, gear manufacturing, Foundry work, etc.

We offer a wide variety of soft faced hammers in different materials, diameters, weights and choice of Indian babul handles or white Boromatic wood handles making it extremely easy to choose the right tool for any of your hammering application.

UHMW hammers: This is our most popular and fastest selling hammer. A well balanced cast iron head with screw in replaceable tips fitted with ergonomically shaped wooden handle. Non chippable, non corrosive and last 3 times then most nylon or plastic hammers. Ideal for Soft to medium blows – sheet metal, bearings, pillow blocks, automobile and aeronautical engineering

UHMW mallets: These mallets are available with replaceable tips or with single piece construction. Cost effective. Soft blows. Jewellery making and carpentry.

Rawhide hammers: Made from tough buffalo hides, seasoned for 3- 4 months, hydraulically rolled and fitted in balanced cast iron heads. Available in natural or dyed hide. Medium to heavy blows: Wire winding, Transformer manufacturing, Smithy.

Rawhide mallets: Single piece construction, hydraulically rolled and riveted for firmness. Light blows. Jewellery and sheet metal industries.

Rubber Hammers / mallets. Hammers are manufactured with natural rubber taper fitted natural rubber tips in balanced head. Mallet is barrel shape single piece construction with strong wooden handle. Heavy blows. Applications in foundry, Tile fittings, Power generation equipments, etc.

Copper Hammers: Extruded fine grade copper tips are taper fitted in well balanced heads. Medium to heavy blows. Engine block fittings.

Other hammers available from our range: Plastic hammers. Rawhide and Copper hammers, Brass hammers, Rubber hammers. Plastic mallets, Lead mallets, Please contact us for further details.
